## PE+ Films

### Consumer recycling solutions

Using state-of-the-art innovative material technology, Coveris' PE+ films provide a world-first recyclable alternative to other not yet recyclable plastics like OPP. Delivering the same protective, functional and shelf-life benefits as existing solutions, the film is easily recycled in the same way that you would recycle a carrier bag in larger stores, making the product eligible to carry the OPRL "Recycle with bags at larger stores" label.

Suitable for all VFFS/HFFS/flow wrapped food and non-food packaging, PE+ films deliver the following properties:

Property	PE+	OPP
Recycle-ready	•	
High-barrier	•	•
Easy open	•	
Microwaveable	•	•
Robust mechanical performance	•	
High-speed packing	•	•
VFFS conversion	•	•
HFFS conversion	•	•
Weld seal	•	•
Lap or fin seal	•	•
